DPESOLAR 20A - CHARGE REGULATOR

Voltage: 12V/24V DC (Automatic selection)
Max. Charge Current: 20A
Float Charge: 14.1 / 28.2V
Boost Charge: 14.4 / 28.8V
Battery Low Voltage Cut off: 11.1 / 22.2V
Reconnect Voltage: 12.6 / 25.2V
Max self consumption : 12 mA
Warranty :2 years
<i>Charging Regulation Five Stages:</i> Bulk, Absorption, Float, Silent and Equalization
LED in symbols and digits showing.
Reverse Polarization Protection
Night-Light Function
Short circuit of Solar and Load Protection
Over Voltage Protection
Over Temperature Protection
Anti bounce-charge control
Over current protection
Auto control of SOC discharge process of storage battery
