## MONOCRYSTALLINE SILICON MODULE

### Products Characteristics

Widely using of the most popular and mature type of modules for off-grid system.

Leading manufacturing technology in PV industry, strictly controlling the quality of raw materials and the process of producing

100% EL inspection, ensures modules are defects free.

Cells binned by current to improve module performance

Anti reflective glass. Not only to increase the light absorption, but also to make the module has the function of self-cleaning in water environment, effectively reducing the power loss caused by dust.

Outstanding performance in low-light irradiance environments.

Excellent mechanical load resistance: Certified to withstand high wind loads(2400pa) and snow loads(5400pa).

High salt and ammonia resistance

Positive power tolerance: 0~+5w

### Warranty

- 5 years product warranty
- 10-years 90% of Min. rated output power, and 25-years 80% of Min. rated output power warranty
