

# Tile Roof Mounting System

Tile Roof Mounting System is a roof-mounting solution suitable for most types of pitched tile roofs. Using our roof rails, pioneered embedded rail connector, the bow shape fixing nut and roof interfaces, Tile Roof Mounting System is fast and simple to be installed cost-effectively and high efficiently, has being widely applied throughout the world. Tile Roof Mounting System is fast and simple to be installed cost-effectively and high efficiently, has being widely applied throughout the world.

## Technical Features

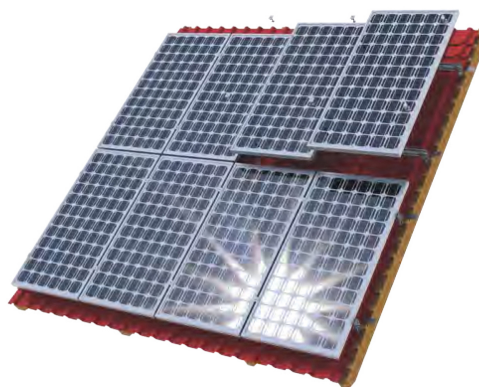

Standard: AS/NZS1170

Material: Aluminum6005-T5 and SUS304

Snow Load: 1.4 KN/m<sup>2</sup>

Max Wind Speed: 55 m/s

Warranty: 10 Years and 20 Years Service Life

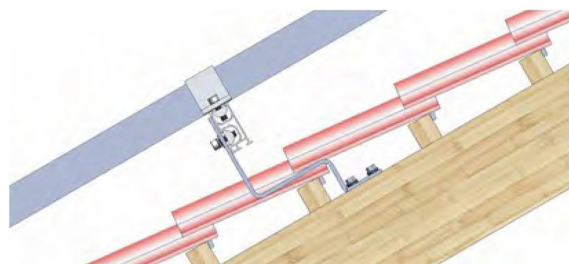

## Key Benefits

### a. Easy Installation

Optimized devised Rails, pioneered embedded rail connector and the bow fixing nut consist the best solution which could do a favor for installers easier to put the fixing nut into the opening of rails without consideration of tilt-in orientation of fixing nut, a safe and efficient work is easy to be implemented.

### b. Perfect Compatibility

Designed as a universal mounting frame, our mounting solution is compatible with most of the major framed and frameless solar panels on the market.

### c.High Quality

Use high class aluminum and stainless steel material as per international standard. Strict quality control covering the entire process from material selection and manufacturing to pre-assemble ensures optimum life for your installation work.

### d. 10 Years Warranty

We provide a 10 years product warranty for using at ease.
