[www.yanglinxm.com](http://www.yanglinxm.com)

## Made of High-Quality Aluminum and Steel

The YL-GB-AG1-02 system is designed to be the most cost-competitive solution for large-scale solar mounting systems, with proprietary aluminum extrusions to reduce material usage and the highest level of in-house pre-assembly on the market. The result is an attractive solar mounting system installed quickly and with the durability to last.

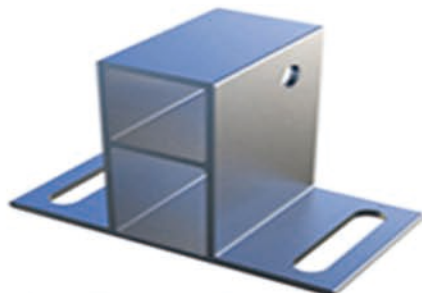

## System Benefits

- a. High level of pre-assembly for fast installations
- b. Easily accessible for ground and system maintenance
- c. Certified engineering by professional engineer licensed in the location of the project
- d. 10 year warranty

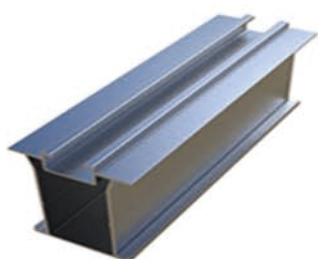

**YL-AG1-B02**

Name:Base  
Specs: steel

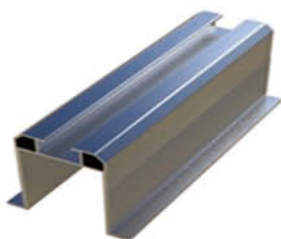

**YL-AG1-B03**

Name:VDB Base  
Specs: steel

**YL-R01**

Name: ground mount rails  
Specs: aluminum  
56mm\*79.5mm

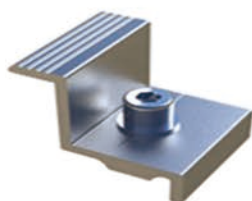

**YL-AG1-SG1**

Name:Beam  
Specs:aluminum  
80mm\*80mm

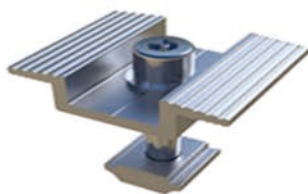

**YL-AG1-ST**

Name:Square Pipe  
Specs:aluminum  
50mm\*50mm

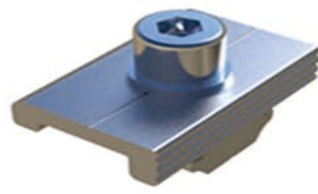

**YL-EC-40-E**

Name:End clamp  
Specs:aluminum,40mm  
hexagon socket screw

**YL-MC-40-E**

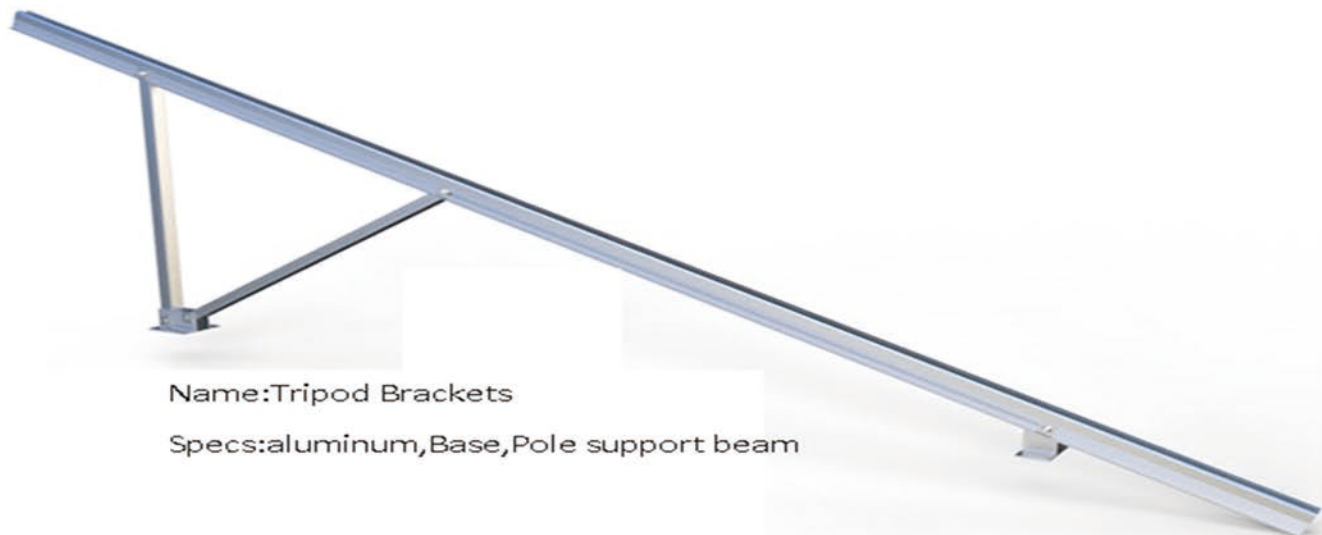

Name:Mid Clamp  
Specs:aluminum,40mm  
hexagon socket screw

**YL-BR-01**

Name:Iner Clamp Kit  
Specs:aluminum,40mm  
hexagon socket screw

## Pre-Assembled

Name:Tripod Brackets  
Specs:aluminum,Base,Pole support beam

## Packing & Delivery

Steel pallet for ground/roof mount support system,solar system.

Components:clamps,hooks,bolts, washers etc... Packing in standard export carton

Usually shipping by sea  
Small order and light weight  
by air if customer requirement
