

JUPITER II SYSTEM:

Solar Ground Mount System

*Patent Pending

Product Detail:

Orion's Jupiter II System features a unique purlin design that allows for a more efficient and faster installation. With even less parts, this system allows installers to slide the modules into place and clamp them down using UL Listed Gator Clamps. Jupiter II is ideal for panels in landscape up to 5 modules high.

Features:

- Slide in Solar Module feature: installs in seconds
- Minimal parts: post, purlins, gator clamps
- Gator Clamps are UL listed and ground the system
- Up to 5 panels high landscape orientation
- All Galvanized Framework
- Snow loads available
- All components pre-punched
- Available 5, 10, 15, 20, 25, 30° angles
- Installers are never on top of frame or panels

20 Year Warranty

Twice the protection offered by competitors.

UL Listed

UL2703

Simple Assembly

Modular system adapts to most terrains.

Integral Grounding

Streamlines equipment grounding.

Rugged Construction

High strength galvanized structure.
