

# TILT AT THE PERFECT ANGLE

**EZ Tilt-Up 2.0**

SunModo is proud to introduce EZ Tilt-up 2.0, an improved single row tilt-up system ideal for light roof structure application.

The system offers various tilt degree options to maximize the power output at lower cost. Designed to meet the needs of a variety of roof structures, the installation is easy and quick to save you labor cost and time.

## **The EZ Tilt-Up 2.0 Advantage**

- ✓ Ideal for light roof structure or older building applications.
- ✓ No seismic or skid issues.
- ✓ Low point load system = Low weight per square foot.
- ✓ Various tilt angles for maximum flexibility.
- ✓ Easy to install with minimal components.
- ✓ Extruded channel in tilt-up rail provides module leveling for uneven roof.

Flat and low-slope roof mounting L Foot, combined with tilt-up rails , provides versatile pitch angles. We offer three standard tilt-up rail lengths of 8, 14 and 25 inches to achieve tilt angles of 10 and 20 degrees. A 10-foot full length tilt-up rail is also available for on-site cutting, allowing maximum flexibility. With a variety of attachment options, the system can be configured in endless ways to meet your specific needs.

## Technical Data

<b>Application</b>	Flat and low-slope roof
<b>Material</b>	High grade aluminum, 304 stainless steel hardware
<b>Finish</b>	Clear anodized
<b>Module orientation</b>	Portrait
<b>Tilt angle</b>	10 and 20 degrees; 10-foot tilt-up rail available for on-site cutting to fit any desired angle
<b>Structural integrity</b>	IBC Compliant
<b>Warranty</b>	20 years
