

GM VRLA Battery

GM Range GM Range batteries start from 12V33AH to 12V250AH, it is flame-arresting and one-way pressure-relief vent for safety and long life. The GM range AGM technology can make efficient gas recombination of up 99% and freed from electrolyte maintenance. Thermally welded case-to-cover bond to eliminate leakage.

General Series(M)	Voltage	Capacity	Battery Size(mm)				Rate	Weight
Battery Model	(V)	(Ah)	Length	Width	Height	Total Height	(HR)	(Kg)
