

SRac Solar Carport System II

SRac Solar Carport System II is a pre-assembled ground solar mounting system which is ideal for large commercial and utility-scale solar PV projects. The system has been developed for various photovoltaic modules and will be customized to fit into the parking lot or designed according to specific requirements. The Carport System can protect the cars to avoid damage from sunshine, wind, rain water, and snow. SUNICE’s engineers continue to optimize the design of system, the quality of product and service, and also provide the best solution for your Solar Carport System.

Specification:

Installation Site	Ground	Design Standard	AS/NZS 1170,DIN 1055,JIS C8955:2017,
Foundation	Concrete Base		International Building Code IBC 2009,
Tilt Angle	5-15°		California Building Code CBC 2010;
Wind Load	45m/s	Material	AL6005-T5(Anodized)
Snow Load	1.2KN/m ²	Fastener	SUS304 & Hot-Dip Galvanized & Zinc-Nickel Alloy Electroplated Steel
Ground Clearance	2000mm+	Small Components	AL6005-T5(Anodized)
Applicable Solar Module	Framed or Frameless	Color	Silver or Customized
Panel Layout	Portrait or Landscape	Warranty	10-Year Warranty
