

【 Ramming Pile Mounting System 】

Design Conditions	
Application:	Flat ground; Slope
Wind speed:	Up to 79.2 m/s (Australia wind region D)
Snow load:	200cm
PV module:	Framed, unframed
Layout way:	Landscape/portrait
Elevation angle:	≤ 60 °
Material:	6005-T5, Q235B/Q355B, SS304
Foundation:	U pile
Standard:	AS/NZS1170.2:2011, JIS C 8955:2017
Warranty:	10 years
Surface treatment:	Anodized+Hot Dip Galvanized 80μm

Advantage:

- 1.Simple structure; Fast construction;
- 2.Suitable for slope; reduce difficulty of construction;
- 3.Save greatly labor cost;
- 4.Design combined aluminum and steel
