PV Solar Module

Data sheet

NEWTEK NTE photovoltaic modules of **GRADE A** are manufactured using German technology with application of A grade 60 monocrystalline cells; the efficiency of cells starts from 18.7%. The output power of the module starts from 260W and up to 270W.

Combining cost-effective prices, aesthetic design, ease of installation and long life time (at least 25 years), our PV solar modules are the optimal solution for the construction of a large solar power plant and for autonomous or backup power systems for any suburban or a multi-storey house.

NEWTEK NTE PV solar modules are manufactured using German technology and equipment (SCHMID GROUP) in compliance with all standards.
