

Powerwall

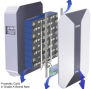

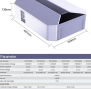

- 100% Solar
- 100% Storage
- 100% Backup
- 100% Protection

100% Solar and Advantages

- Solar Panel
- Inverter
- Battery
- Controller

Battery Storage System

Model	Capacity	Power	Dimensions	Weight
Powerwall 100	100kWh	10kW	1200x600x1750mm	100kg
Powerwall 200	200kWh	20kW	2400x600x1750mm	200kg
Powerwall 300	300kWh	30kW	3600x600x1750mm	300kg

The Powerwall System is a complete energy storage solution for your home or business. It consists of a solar panel, an inverter, a battery, and a controller. The solar panel generates electricity, which is stored in the battery. The inverter converts the stored electricity into AC power, which can be used to power your home or business. The controller manages the flow of electricity between the solar panel, the battery, and the inverter.
