

Product Introduction

The bracket system is made of hot-dip galvanized carbon steel material. For different foundation solutions, the bracket system can be fixed to the cement foundation by means of pre-embedded anchor bolts, or it can be fixed directly to the ground by spiral piles.

8.Light ballast system mount system

Parameter

Wind Load: 42M/S

Snow Load: : 1KN/M²

Adjustable angle:5°, 10°, 15°, 20°

Standard Length:40MM

Design Standard:AS/NZS1170, ASCE7-05, DIN1044

GB50797-2012 GB 50017-

2003,BSEN1990:2002

BSEN1991-1-3:2000,BSEN199-1-4:2005

Installation Site: Porcelain tile roof

Main Material:Q235B

Fastener Material: :SUS304

PV Module:Framed

Module Layout: : Landscape

Warranty:10 Years

End Clamp

Mid Clamp

Z Bracket
