

PWM Solar Charge Controller

Parameters	20A PWM solar charge controller
Charge Controller Type	PWM
Power	20A
Suitable Battery	LI-ion, Life-po4, Lead Acid
Suitable Solar Panel	12V, 400W
Dusk to Down	Optional Available
Size (LXBXH)	80X65X40
Operating Temperature	0 to 85C

Protection

LED Indication

- Battery reverse polarity protection.
- Solar panel Reverse polarity Protection.
- Load short circuit protection.
- Battery Low Load disconnection.
- Battery Full Cut-off.
- Battery Charging - Blue LED Blink
- Battery Full - Blue LED Constant Glow.
- Battery Low - Red LED Constant Glow.
