Easy Solar Kit

Solution Introduction

Beny provides a plug and play balcony PV power generation solution, mainly using Beny Easy Solar Kit. Easy Solar Kit, which integrates PV module, microinverter, module bracket and cables, is designed for a variety of scenarios, can be installed on flat garden, flat roof, and even balcony and wall.

Adjustable Angle

The bracket angle adjusts for optimal power generation according to various installation scenarios

All-in-one Design

The system integrates with solar panels, inverters and cables. Portable and foldable for various applications.

Portable

Compact and small sized be transported

Easy Installation

Plug & play connection, no requirement for professional installation, saving installation costs.

Guaranteed Quality

30-year design life up to 25-year warranty

Angle adjustment range for balcony: 15-50°

Angle adjustment range for garden: 30-40°

Solution Connection

BENY BYM600/800 microinverter connect to 1 or 2 module and enable module-level maintenance and management of the PV station by monitoring power generation of each module. Module-level data can be uploaded to the monitoring platform via BENY data transfer units through Wi-Fi.

Smart Monitoring

Advantages

- Directly connect to microinverter without network.
- Real-time data analysis, visualizing power generation.
- Remote control support.
- Intuitive and efficient operation, secure data management.
- Quickly view solutions for product faults to resolve issues.
