

TILT AT THE PERFECT ANGLE

SMR Tilt-Up

SunModo is proud to introduce SMR Tilt-up, an improved single row tilt-up system ideal for light roof structure application.

The system offers various tilt degree options to maximize the power output at lower cost. Designed to meet the needs of a variety of roof structures, the installation is easy and quick to save you labor cost and time.

The SMR Tilt-Up Advantage

- ✓ Ideal for light roof structure or older building applications.
- ✓ No seismic or skid issues.
- ✓ Low point load system = Low weight per square foot.
- ✓ Various tilt angles for maximum flexibility.
- ✓ Easy to install with minimal components.
- ✓ Extruded channel in tilt-up rail provides module leveling for uneven roof.

Key Features of SMR Tilt-Up

Flat and low-slope roof mounting L Foot, combined with tilt-up rails , provides versatile pitch angles. We offer three standard tilt-up rail lengths of 8, 14 and 25 inches to achieve tilt angles of 10 and 20 degrees. A 10-foot full length tilt-up rail is also available for on-site cutting, allowing maximum flexibility. With a variety of attachment options, the system can be configured in endless ways to meet your specific needs.

Technical Data

Application	Flat and low-slope roof
Material	High grade aluminum, 304 stainless steel hardware
Finish	Clear anodized
Module orientation	Portrait
Tilt angle	10 and 20 degrees; 10-foot tilt-up rail available for on-site cutting to fit any desired angle
Structural integrity	IBC Compliant
Warranty	25 years
