

# SK series

## PWM solar charge controller

# SK100D

## (100 A)

SK series is a new series of intelligent multi-purpose solar charge controllers. Its innovative design makes it easy to install and quite user-friendly. Optimized charging and discharging management extends the service life of batteries considerably. Meanwhile, parameters are explicitly displayed. All parameter values can be set to meet various applications.

### Features:

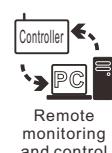

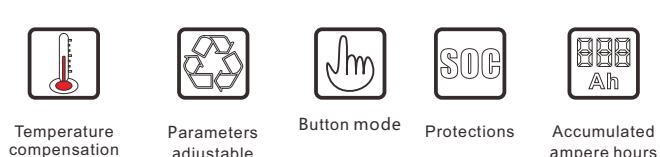

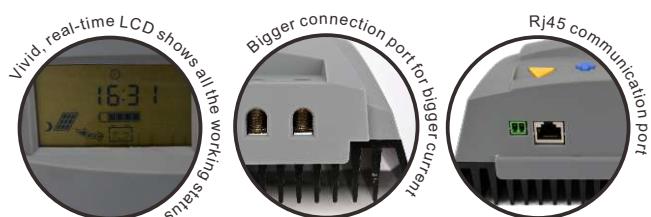

- PWM control
- Multistage charging technology(bulk, absorption, float and equalized)
- Most parameters displayed explicitly
- Automatic detection of battery voltage
- Automatic temperature compensation
- Simple button operation
- Self-timing
- Adaptable to Sealed, Gel, Flooded and other customized battery type
- Preset parameters for charging(Special parameters can be customized)
- All working parameters can be adjusted and reset
- Remote communication function(optional) ---RJ45 connection port, RS232, RS485 and standard Modbus communication protocol

### Electronic protections:

- Over charge protection
- Over temperature and over load protection
- Automatic electronic fuse
- Short circuit protection of PV
- Input over voltage protection
- Reverse current protection at night
- Reverse connection protection of PV and battery

### Displays:

- Vivid LCD graphic symbols  
---presents working status and related parameters explicitly

## Technical Data

| Model       |                           | SK100D  | SK10048D     |
|-------------|---------------------------|---|--------------|
| Solar Input | Input voltage             | $\leq 50V$                                    | $\leq 100V$  |
|             | Rated input current       | 100A  |              |
|             | Charge loop voltage drop  | $\leq 0.24V$                                  | $\leq 0.30V$ |
| Battery     | System voltage            | 12V/24V Auto                                  | 48V          |
|             | No load loss              | $\leq 13mA$                                   |              |
|             | Battery type              | Sealed,GEL,Flooded,User customized            |              |
|             | Charging mode             | 4 stages(Bulk,Absorption,Float,Equalized),PWM |              |
|             | Float charge voltage      | 13.8V(13V~15V)×1/×2/×4                        |              |
|             | Absorption charge voltage | 14.4V(13V~15V)×1/×2/×4                        |              |
|             | Equalized charge voltage  | 14.6V(13V~15.5V)×1/×2/×4                      |              |
|             | Temperature compensation  | -4mV/Cell/°C                                  |              |
| Load        | Rated load current        | 100A  |              |
|             | Discharge loop drop       | $\leq 0.12V$                                  | $\leq 0.16V$ |
|             | Low voltage disconnect    | 10.8V(10V~14V)×1/×2/×4                        |              |
|             | Low voltage reconnect     | 12.6V(10V~14V)×1/×2/×4                        |              |
|             | Over voltage disconnect   | 16.0V×1/×2/×4                                 |              |
| Related     | Max wire size             | 25mm <sup>2</sup> (AWG 3#)                    |              |
|             | Working temperature       | -20°C~55°C                                    |              |
|             | Working humidity          | 10%~90%,no condensation                       |              |
|             | Dimension(L×W×H)          | 220mm×133mm×77.5mm                            |              |
|             | Net weight                | 1.34kg  |              |
