DISK

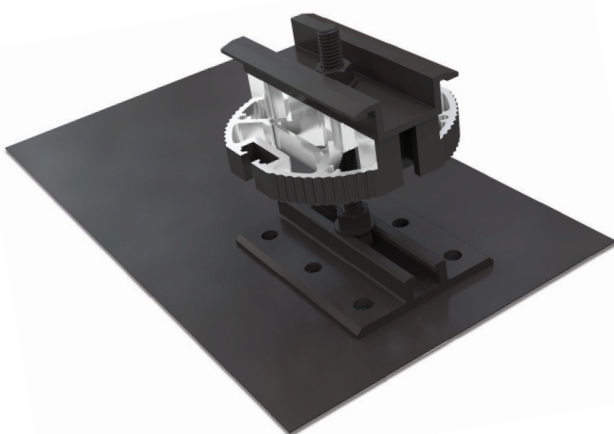

The POWER DISK™ – Rail-less Mounting System

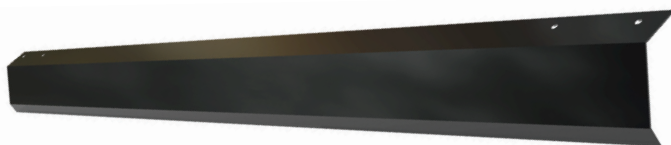

The **POWER DISK™** system offers a simple and cost effective solution to residential roof top mounting. The Rail-less design features a unique base that attaches anywhere on the roof for easier module layout. POWER DISK is quick to install with fewer components and tools required than traditional rail systems. Vertical adjustments are made easily by simply spinning the disk. POWER DISK includes integrated grounding and is compatible with most framed PV modules.

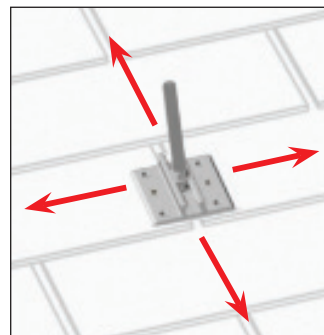

Factory preassembled – mounting screws included

Flashing option shown – mounting screws included

POWER TRIM Black Skirt – mounting screws included

The POWER DISK™ mounts anywhere on the roof. No need to locate rafters.

Adaptable

- Works with 60 and 72 cell modules
- Vertical adjustments to accommodate roof undulations
- Roof deck or lag mounting screws included
- Portrait or landscape mounting
- Black or mill finish options
- Optional flashing

Quick Assembly

- Eliminates handling long rails
- Fewer parts than rail-based system
- Rotating disk provides fast vertical adjustment
- Factory preassembled units
- Base slot for easier alignment of modules
- Installation aids included

Reliable

- Sealing butyl mastic (included) or optional flashing
- 6005-T5 Extruded Aluminum and Stainless Steel Hardware
- Integrated grounding
