

LV Wall-Mounted Battery Storage

Arbitrary Extension

The same capacity of the battery can be freely expanded from 5.1 to 153 kWh.

Wall-mounted design

Fits smaller residential builds. Cabins, tiny homes, and apartments are perfect applications for this product to keep everything running smoothly.

High Safety

Build-in BMS, protection functions of discharge, over charge, over current, high temperature and low temperature.

Compatible Inverters

SMA, Victron Energy, Deye, Goodwe, Growatt, Sermatec, etc.

Model	WMLV10
Nominal Voltage	51.2V
Nominal Energy	10 kWh
Cell Technology	Lithium-iron Phosphate (LiFePO4)
Round-Trip Efficiency	98%
Dimensions(L/W/H)	622*185*760mm
Weight	130kg
