

Glazed Tiled Roof Mounting

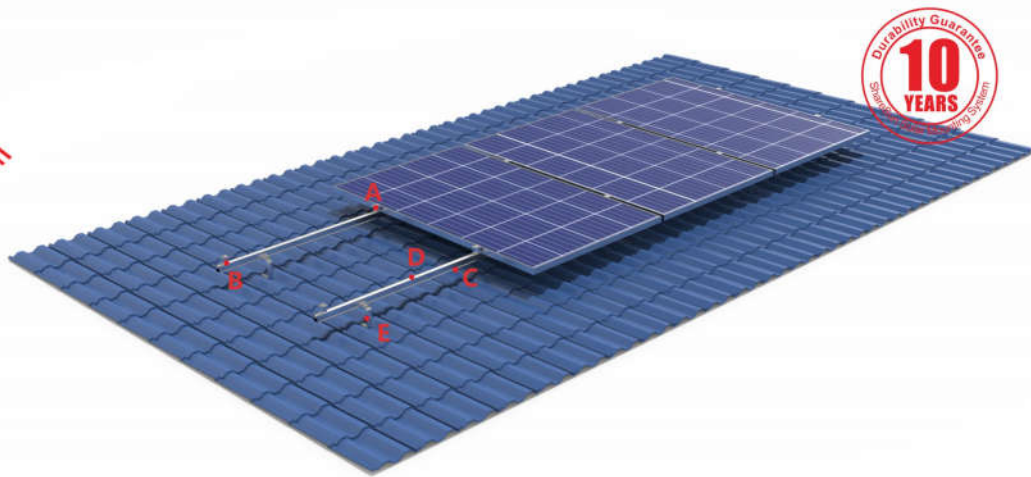

(SS-PRM-01)

System introduction

Glazed Tiled Roof Mounting is an universal system for glazed tiled roofs. We use aluminium alloy 6005 T5 or 6063 T5 for structure material. The fasteners and hooks are stainless steel 304. According to the roof condition, there are many kinds of hooks to choose. On the basis of meeting the mechanical calculation, customers can achieve the best cost.

Technical Data

Installation site: Glazed Tiled Roof
 Installation angle: 5-45 degree
 PV modules: framed or unframed
 Module layout : Vertical or horizontal
 Max wind speed: 45m/s
 Material: Alu 6005 T5, 6063 T5 & SUS304
 Color: Natural or customized
 Standards: BS6399, JISC 8955, Eurocode 1, DIN 1055, AS/NZS 1170 and other standards
 Warranty: 10 years warranty
