

Tiled Roof Mount

Eon's Universal Tiled Roof Mount solution is ideal for installations on pitched, tiled roofs inclined anywhere between 5° and 60°.

Eon's Universal Tiled Roof Mount is suitable for almost any flat roof. It accommodates all framed and unframed solar panels current on the market.

Eon's complete product range of mounting brackets provide for fast and simple fixing to purlins or rafters, without affecting the integrity or function of the tiles themselves. Roof brackets are available for traditional profile tiles and flat tiles.

To simplify connection of support rails to the brackets, Eon's rails are designed to allow fixing nuts to be simply swivelled into the rails.
