

Ground W mounting

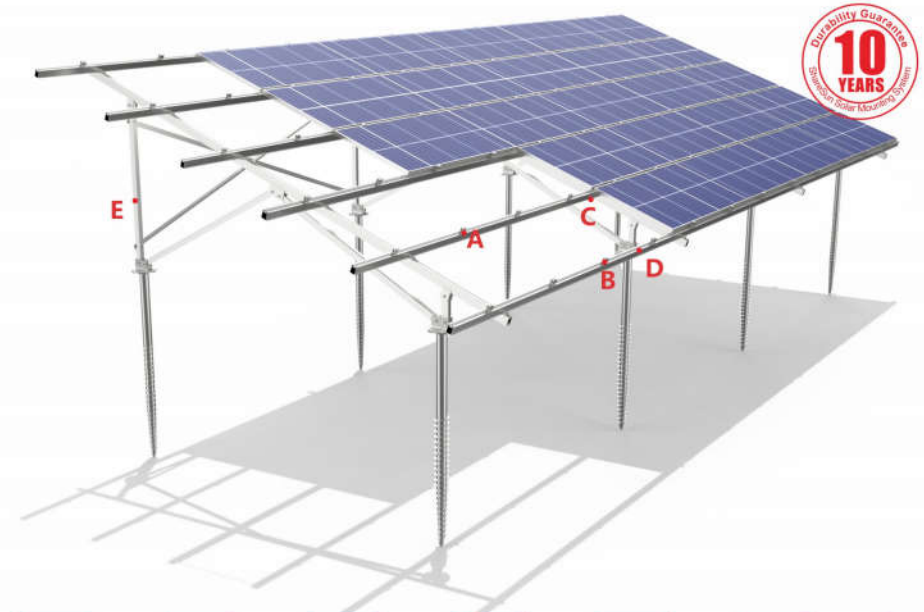

(SS-GWM-01)

System introduction

Ground W mounting is a general product suitable for open ground. It could be widely used on two general ground foundations, concrete foundation and ground screw foundation. Aluminum alloy 6005 T5 or 6063 T5 are used for metal structure. The fastener is stainless steel 304. It has a height adjustment function of 3cm. On the basis of meeting the mechanical calculation, it achieves the best cost for customers.

Technical Data

Installation site: Open Ground
 Installation angle: 5-45 degree
 PV modules: framed or unframed
 Module layout : Vertical or horizontal
 Max wind speed: 45m/s
 Material: Alu 6005 T5, 6063 T5 & SUS304
 Color: Natural or customized
 Standards: BS6399, JISC 8955, Eurocode 1, DIN 1055, AS/NZS 1170 and other standards
 Warranty: 10 years warranty
