Geco Ground Mounting System

Aluminum Ground Mounting System GGMS-AL

Product Features:

- T**he main materials are aluminum alloy with light weight and few components, easy packing and convenient transported;
- G**ood looking, strong anti-corrosion;
- P**reassembly in factory, lower installation time and cost at site;
- W**ide range of application to various kinds of terrain.

Technical Parameters:

Module specification:	Based on customer requirement
Module arrangement:	Landscape / Portrait
Installation tilt:	10-30°
Foundation:	Ground screw/ Bored Concrete Pile/Concrete
Maximum wind speed:	38 m/s
Maximum snow load:	60 cm
Material:	Aluminum
Surface treatment:	Anodizing
Design life:	25 years
Warranty:	15 years

Foshan Geco Renewable Energy Co., Ltd
