

## Horizontal automatic hydraulic baler series

### Scope:

Widely used in pressing the leftover material from printing paper, special paper, films, fibers and fabrics, non-woven materials, etc.

### PRODUCT INTRODUCTION

Full-automatic hydraulic baler without human operation, completing package automatically, tie bale by PP strap, and reduce auxiliary cost. Feed opening can connect with air-blower or conveyor line to feed material or feed in the end of production line directly.

### DATA SHEET

| Model  | Hydraulic power (Ton) | Bale Size (L*W*H) mm | Feed Opening Size (L*W) mm | Bale Weight (Kg) | Bale Lines | Voltage (Customizable) (V/Hz) | Power (Kw/Hp) | Machine Size (L*W*H) mm | Machine Weight (Ton) |
|--------|-----------------------|----------------------|----------------------------|------------------|------------|-------------------------------|---------------|-------------------------|----------------------|
| JPW20Q | 20                    | 500*500*500          | 700*460                    | 30-70            | PP2-4      | 380V/50Hz                     | 7.5Kw/10Hp    | 3400*3010*2400          | 2.8                  |
| JPW30Q | 30                    | 700*700*700          | 900*660                    | 70-130           | PP3-5      | 380V/50Hz                     | 11Kw/15Hp     | 4250*3120*2600          | 3.3                  |
| JPW40Q | 40                    | 800*800*800          | 1100*760                   | 100-150          | PP3-5      | 380V/50Hz                     | 15Kw/20Hp     | 4750*3380*2900          | 3.7                  |

\* The above parameters can be customized to customer's requirement.
