

G-eco 50S VERTICAL BALER

ENGINEERING SOLUTIONS FOR THE WASTE & RECYCLING INDUSTRIES

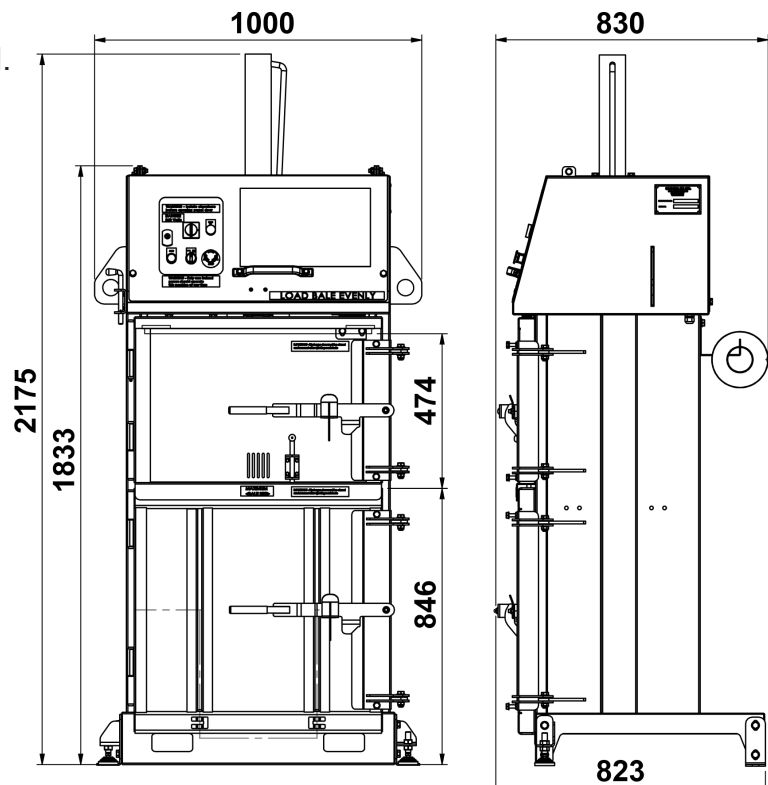

The Gradeall G-eco 50S is a multi-purpose compact vertical baler that can be used to bale a wide range of materials. This single chambered machine creates a compact and neat bale from any type of cardboard or plastic material. The G-eco 50S has been designed, built and assembled by Gradeall International to ensure the highest quality and levels of dependability.

The robust nature in which the G-eco 50S is built ensures a long life span, this coupled with minimal maintenance requirements results in an efficient and cost-effective baling and recycling solution, ideally suited for small retailers or businesses dealing with waste packaging.

- Small footprint with compact dimensions.
- IP55 rated for outdoor use.
- Ready to use with a 240v 13A single phase supply.
- Simple to operate controls.
- Suitable for paper, cardboard or plastics.
- Insert available to bale material into plastic bags.
- Energy efficient, motor only operates when required.

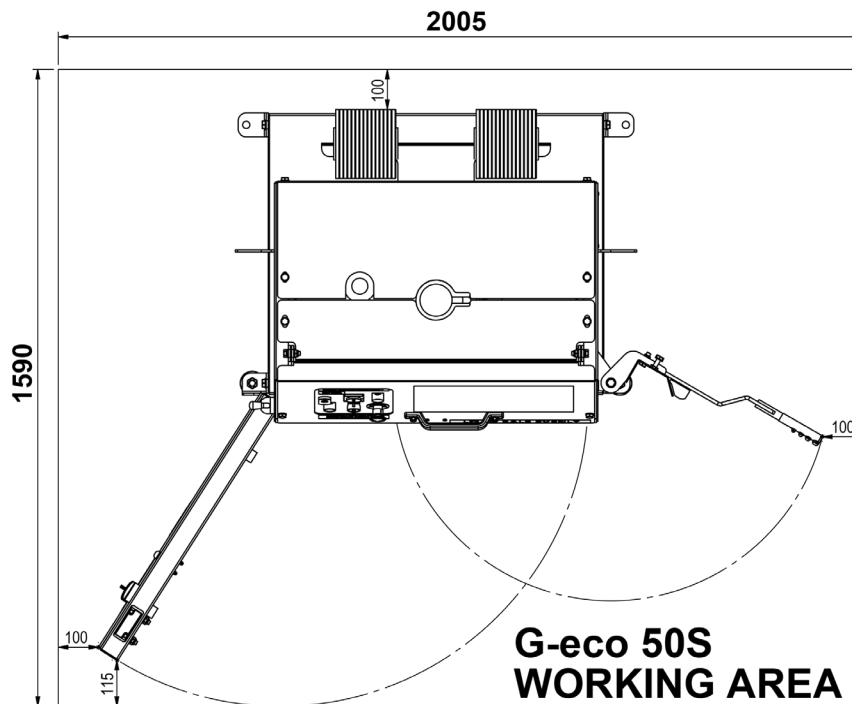

Model	G-eco 50S
Width (mm)	1000
Height (mm)	2175
Depth (mm)	830
Power supply	240v 13A Single Phase
Motor size (Kw)	1.1
Cycle time (Seconds)	40 Maximum
Bale dimensions (mm)	700 x 700 x 500
Bale weight (Kg)	30-60
Machine weight (Kg)	380
Head compaction force (Tonne)	5
Number of bale twines per bale	2
Noise level (dB)	65-70
Loading door height (mm)	846
Loading door opening aperture (mm)	710x474
Recommended working area (mm)	2005x1590

G-eco 50S VERTICAL BALER
