

KK Mini Baler

This small baler with its solid steel construction and unique drive mechanism is suited to small commercial and retail outlets where space is a premium and there is a small volume of waste being generated.

The wide loading aperture, fast cycle time and high compaction ratio, produces dense bales of cardboard and plastic. Bales weighing up to 75 kg (depending on materials used) can then be easily handled for disposal / recycling.

This model can be sited inside or outside if situated under a suitable cover.

OPTIONS/ACCESSORIES

Waterproof Hood, Bale Trolley, Metal platform (for crushing cans)

SPECIFICATIONS	
Suitable applications	<ul style="list-style-type: none"> • Paper • Card • Plastic • Cloth • Polystyrene • Metal Containers
Dimensions (W x D x H)	1040 x 750 x 2335 mm
Transportation Height	1800 mm
Machine Weight	270 kg
Feed Aperture (W x D x H)	700 x 500 x 735 mm
Bale Dimensions (W x D x H)	550 X 750 X 600 mm
Bale Weight	Up to 75 kg (depending on material)
Compaction Force	3.5 Ton
Working Cycle	24 Seconds
Motor Rating	1.5 kw
Electrical Supply	13 AMP, Single Phase, 220- 240 V
