

# Advanced compaction for a cleaner environment

## TT300 Low Height Baler

The TT300 is a low height large baler, suitable for environments with restricted height.

Easy to transport and install, with no on-site assembly required, the TT300 is ideal for baling card, plastic, polythene and paper.

The TT300 has a wide opening for handling large boxes, and the chamber is equipped with barbs which helps to keep even the most voluminous materials compacted down.

### Key Features

- Perfect for where space is limited
- Ideal for ships and ferries where height is restricted to 2.3 metres
- Easy to transport and install
- Automatic compaction cycle with bale full light
- Fully automated bale ejector: simplifying bale removal
- Fold down top door
- Tie-off bale with doors open
